

Proposed Functions, Testing and Assessment Coordination^{or}

I Mission

Continually coordinates, studies and makes recommendations to appropriate CIA officials designed to improve and integrate aptitude and proficiency testing and assessment programs throughout CIA.

II Functions

a. Maintains cognizance over all technical testing and psychological testing and assessment throughout CIA, exclusive of that performed by the Medical Office.

b. Conducts inter-Agency and external liaison for the purpose of improving and integrating Agency testing and assessment programs.

c. Conducts research and validation programs designed to demonstrate CIA's testing and assessment needs.

d. Makes studies and recommendations and serves as a consultant to appropriate officials to set forth the Agency's needs for testing and assessment and assist in achieving properly approved objectives with a minimum of duplication.

e. Conducts liaison with the CIA Medical Office and furnishes its Psychiatric Division with ^{such} assessment and testing data as will support the psychiatric program and assure minimum duplication in the psychological field.

f. Provides for such training as may be necessary to insure proper utilization and interpretation of testing and assessment results.
